## POWER NODE 2i (with HDMI)

### Wireless Multi-Room Hi-Res Music Streamer

The amp reinvented. The POWERNODE 2i is the streaming amplifier that merges several traditional components into one and unlocks a world of high-fidelity streaming. Effortlessly driving your choice of speakers with the same zero-distortion audio signature Bluesound has become known for, the POWERNODE 2i takes your favorite tracks to new levels. Permission to turn it up, granted.

Easily drive your existing pair of premium speakers

HybridDigital™ amp and DAC technologies ensures flawless playback with precision and clarity.

60 Watts x 2 into 8 ohms of HybridDigital™ power.

HDMI (ARC & eARC) connectivity.

Featuring digital and analog input/output options, headphone stereo mini jack, subwoofer RCA mono.

Access and stream Internet radio stations, cloud music services, and your own local music library to multiple Bluesound Players.

Create and control a seamless multi-room system with the intuitive BluOS Controller app.

Connect Bluesound to your Amazon Echo with the skill in the Alexa app and use Amazon's Alexa voice assistant to control Players around the home.

AirPlay 2 lets you play music or podcasts from wireless stereo components throughout your house — all in sync.
