PRODUCT INFORMATION

# AVR-X3400H

## 7.2CH AV SURROUND RECEIVER WITH HEOS

# WORLD-CLASS HOME ENTERTAINMENT

The AVR-X3400H 7.2 channel AV Surround Receiver offers the ultimate home theatre experience with Dolby Atmos and DTS:X, plus unparalleled music playback options, thanks to built-in HEOS technology.

## HIGHLIGHTS

7.2 channel AV Receiver with 180W per channel  
Built-in WiFi with 2.4GHz/5GHz dual band support; built-in Bluetooth  
4K/60 Hz pass-through, Dolby Vision compatible, HDR, HLG, eARC\* and BT.2020  
8 HDMI inputs (incl. 1 front) with full HDCP 2.2 support; 3 HDMI outputs  
Advanced Video Processing with full-rate 4K Scaling for all sources  
Dolby Atmos (up to 5.1.2) and DTS:X  
Built-in HEOS Wireless Multi-Room Audio Technology  
AirPlay, Bluetooth, Internet Radio, Spotify Connect, Tidal, Deezer, Network Audio Streaming  
AKM 32-bit D/A converters; DSD (2.8/5.6MHz), FLAC, ALAC and WAV support  
Audyssey MultEQ XT32, Dynamic Volume and Dynamic EQ, LFC, Sub EQ HT  
Colour-coded speaker terminals, Setup Assistant, Denon 2016 AVR Remote App  
Intelligent ECO mode with off/on/auto setting

## YOUR BENEFITS

Enough power to fill medium size rooms with unique Denon sound  
Improved network stability especially in WiFi-crowded homes  
Latest HDMI standard for future-proof compatibility  
Plenty of inputs for all sources; dual main zone + second zone HDMI  
Full HD and even Ultra HD video quality from existing video sources  
Blockbusting 3D sound with effects from overhead  
Enjoy your music in your whole house with more HEOS products  
Access to almost unlimited online music sources  
High Resolution audio streaming for HiFi enthusiasts even in Gapless  
Delivering the most advanced equalization for your individual room  
Hassle-free installation, setup and operation  
Energy-conscious without compromising on performance

\* via firmware update

Powerful 7 Channel Discrete Amplifier

Featuring high current discrete power output devices on all channels, the AVR-X3400H delivers high power and is rated at a maximum of 180 watts per channel. There's also an Auto Eco mode that adjusts the maximum power available according to the volume level as well as an on-screen Eco meter that lets you see the power consumption reduction in real time. For compatibility with the widest range of loudspeakers the AVR-X3400H is equipped with low impedance drive capability that provides operational stability with 4 ohm speakers.

HEOS wirelss multi-room music streaming, controlled by free HEOS app

Our HEOS technology enables the AVR-X3400H to become part of the HEOS wireless multi-room system, allowing you to enjoy your favourite music anywhere – and everywhere – around your home. Share music stored on your home network, Internet radio or streaming services with HEOS wireless speakers, or even other HEOS-capable receivers, throughout the house. And it's all controlled by the free HEOS app, installed on as many smartphones and tablets as you like! The app gives you instant multi-room audio control, meaning you can command music in every room from any device: play different music from different sources in every room, group several rooms together and play the same song, perfectly synchronized, in party mode! Learn more about the full HEOS lineup here: <http://www.heosbydenon.com>.

Wide array of music streaming services

The HEOS app puts multiple streaming services in the palm of your hand, ready to play on your AVR or any devices on your HEOS network! Enjoy music from Spotify, Deezer, Tunes Internet radio, Sound Cloud, Tidal or Napster (\*), or use the HEOS app to stream tunes or whole albums from your phone, USB stick, or computers and NAS drives on your home network. Whatever you want to hear, access it directly from the HEOS app, complete with support for favourites and playlist functions.

(\*) Availability differs by area, subscription may be required.

Technical information			
Number of power amps	7 (Front L/R, Center, Surround L/R, Surround Back L/R)	FM section	
Power output	180 watts per channel (6 ohms, 1 kHz, THD 1%, 1ch driven)	Tuning frequency range	87.5 - 108 MHz
	135 watts per channel (6 ohms, 1 kHz, THD 0.7%, 2ch driven)	AM section	
	105 watts per channel (8 ohms, 20 Hz - 20 kHz, THD 0.08%, 2ch driven)	Tuning frequency range	522 kHz – 1611 kHz
Speaker impedance	4 - 16 ohms	General	
Preamplifier section		Power supply	AC 230 V, 50 Hz
Input sensitivity/impedance	200 mV / 47 kohms	Power consumption	600 W (Standby 0.1 W, CEC standby 0.5 W)
Frequency response	10 Hz - 100 kHz — +1, -3 dB (DIRECT mode)	Power consumption No-Sound	45 W (ECO on), 80 W (ECO off)
S/N Ratio	100 dB (IHF-A weighted, DIRECT mode)	Dimensions (W x H x D)	434 x 167 x 389 mm
		Weight	10.8 kg

Dolby Atmos & DTS:X

Feel every dimension in Dolby Atmos. Dolby Atmos transports you into the story with moving audio that flows all around you with breathtaking realism. Enjoy a 5.1 surround sound speaker system and 2 additional overhead speakers or 2 Dolby Atmos elevation speakers for the ultimate home theater experience – including Dolby Surround upmixer for legacy content.

DTS:X™ immersive audio places sound where it would occur naturally in space, creating a lifelike, multi-dimensional audio experience in the home. The improved immersion and heightened realism draw you into the world of your favourite movies. The included spatial remapping engine, DTS Neural:X™, gives your movie, game and music collections a new lease on life! DTS:X brings the theatre home.

Advanced HDMI Video Section

Featuring 8 HDMI inputs, including 1 conveniently located on the front panel, the AVR-X3400H incorporates an advanced video section that features all you need for the ultimate home cinema experience: Full 4K Ultra HD, HDCP 2.2, HDR (High Dymanic Range), BT.2020, Wide Color Gamut and 4:4:4 Pure Color sub-sampling. It is even ready for Dolby Vision, HLG (Hybrid Log Gamma) and eARC (enhanced Audio Return Channel; via update), and owns an advanced video processor to upscale existing lower resolution video to true 4K. Thanks to the three HDMI outputs, you can even connect a TV and a projector in parallel, and watch a different source in a second zone.

High Resolution Audio / Front USB Port

Enjoy superb audio fidelity with your favourite high resolution audio tracks. The AVR-X3400H features high resolution audio decoding with multiple lossless file types including ALAC, FLAC and WAV at up to 24-bit/196-kHz along with compatibility for 2.8/5.6-MHz DSD files (DSD is the audio coding format of SACD). Play them from memory devices via the front panel USB, or from network sources – the AVR-X3400H will also play lossy file types such as MP3 and WMA.

Built-in Bluetooth, Wi-Fi & AirPlay

Featuring Bluetooth and dual band Wi-Fi wireless connectivity, the AVR-X3400H is equipped with an advanced dual diversity antenna RF transceiver system for robust and error-free streaming, even in congested environments. Connect to the internet through your home Wi-Fi network (or with a hard-wired connection via the RJ-45 Ethernet LAN port) and enjoy all the music options the HEOS technology offers, including thousands of internet radio stations around the world.

With AirPlay you can enjoy listening to your favourite tracks wirelessly from your favorite iOS device including the iPod touch, iPhone and iPad.

Audyssey Room Correction

The AVR-X3400H features the Audyssey MultEQ XT32 suite of DSP functions, which includes room equalisation, Dynamic EQ and Dynamic Volume. Audyssey MultEQ XT32 automatic room acoustic measurement and correction system matches your speakers to your room's acoustics, for the smoothest, most natural tonal balance. Audyssey Dynamic EQ uses advanced psychoacoustic algorithms to continually adjust tonal balance so that the sound you hear is full range, even at lower volume levels, and Audyssey Dynamic Volume smoothes out annoying volume jumps, especially with loud commercials. Audyssey LFC prevents bass from passing your walls and disturbing your neighbours while maintaining the bass performance in the listening room. Audyssey Sub EQ HT makes the integration of dual subwoofers seamless by first compensating for any level and delay differences between the two subwoofers and then applying Audyssey MultEQ XT32 to both subwoofers together.

Audyssey MultEQ Editor App

With this comprehensive app, you can harness the power of Audyssey MultEQ to take total control of the way your home cinema sounds. Go 'under the hood', view and adjust settings for detailed tuning, customize the sound more precisely to the specific problems in your room, and tailor the sound to your personal preferences. The app is available for purchase from the Apple AppStore and Google Play appstore.

Easy To Setup, Easy To Use

For maximum ease of setup, the AVR features a horizontal row of colour-coded premium loudspeaker connectors, and it comes with a set of colour-coded speaker cable labels that help ensure correct speaker cable hookup the very first time. With our exclusive Setup Assistant along with the Quick Start Guide, you can connect and configure your home cinema system quickly and easily. The Setup Assistant features clear on-screen graphics and text that quickly and easily guide you through the setup process, optimizing critical system settings for the best possible sound quality.

Ports		
IN	HDMI (Front 1)	x 8
	Composite	x 3
	Component (video)	x 2
	Analogue Audio	x 5
	Digital Optical / Coaxial	x 2 / x 2
	USB (front)	x 1
