SB26

ADVANCED SOUNDBAR WITH BLUETOOTH® AND POWERED WIRELESS SUBWOOFER.

**AVAILABLE AT
DIGITAL CINEMA**

Simple setup, advanced technology

With the latest advanced surround sound technology, wireless streaming via Bluetooth®, and classic Harman Kardon audio engineering, the SB26 is in a class by itself. With its four woofers, two tweeters and powerful 100W subwoofer, the SB26 serves as a perfect partner to your HD flat screen television. Moreover, the new SB26 comes with all the features to fit the modern, digitalized home, allowing easy connectivity to tablets and Smartphones.

Features:

- ▶ Powerful 2-channel amplification and 100W bass reflex subwoofer
- ▶ Exclusive Harman Display virtual surround sound
- ▶ Simple, one cable HDMI® connection to your TV
- ▶ Wireless Bluetooth® connectivity for streaming from any device
- ▶ Compatible with the Harman Kardon Remote app for easy set up and advanced features

Audio

- Soundbar includes two-way, dual-driver left and right soundbar speaker modules, each with two 75mm (3") midrange drivers and a 25mm (1") dome tweeter, video-shielded
- Wireless, 100-watt, powered subwoofer with a 250mm (10") driver in a ported enclosure
- Soundbar amplifier power: 30W x 2
- EQ switch lets you adjust the soundbar's bass for wall mounting or table mounting to deliver the most natural-sounding bass performance in any installation
- Adjustable subwoofer crossover lets you achieve a smooth transition of bass between the subwoofer and the soundbar for a variety of different rooms and subwoofer locations
- Phase switch lets you fine-tune bass performance to your listening environment and taste
- Subwoofer-level control directly from the remote control to let you achieve the best balance between the subwoofer and soundbar for a variety of rooms
- Hardware (included) that makes it easy to mount the soundbar on the wall along with your flat-panel TV

Surround Processing

- Harman Display Surround Virtual Speaker surround mode creates a complete surround sound experience without any extra speakers or wires
- Two-channel stereo mode for traditional stereo playback
- Dolby® Digital Decoding
- Harman Volume helps you maintain the same volume level, no matter what you're watching - be it a film, TV show or TV commercial

Connectivity

- Two HDMI® inputs
- One HDMI® output with Audio Return Channel (ARC) and CEC
- Bluetooth® connectivity
- One stereo analog-audio input
- One optical digital input
- One USB port for software update

Ease of Use

- On Screen Display (through HDMI®) lets you control your options visually
- An included IR remote allows you to conveniently control all soundbar functionality
- Programmable soundbar that can obey your TV remote's volume, power and source commands, enabling a single remote to control your whole home theatre system
- Wireless subwoofer that you can place anywhere in your room without loudspeaker wires
- Optional IR repeater. In case the soundbar is blocking your television's IR receiver, insert the IR repeater into the back of your soundbar and place it in front of the IR receiver of the television.
- Auto turn-on circuit automatically switches the subwoofer from 'standby' to 'on' when an audio signal is present

What's in the box:

- 1 Harman Kardon SB26 soundbar with 100W wireless reflex bass subwoofer
- 1 AC adaptor
- 1 3.5mm connector cable
- 1 optical cable
- 1 HDMI® cable
- 1 IR repeater cable
- 1 remote control
- Wall-mount brackets
- Quick-start guide
