

Studio 210

2-way 4" Surround Loudspeakers

**AVAILABLE AT
DIGITAL CINEMA**

Sonic dynasty meets high-tech destiny

For those destined to find exactly what they're looking for when it comes to a speaker system – we bring you the new JBL® Studio 210 surround loudspeakers. As part of the groundbreaking 10-piece JBL® Studio 2 loudspeaker series, the Studio 210 fast-forwards you into a world where legacy sound-craft and advanced technology go hand-in-hand in shaping a listening experience like never before. The Studio 210's 4" PolyPlas™ driver is designed to bring you pitch-perfect vocal clarity and tight, accurate bass. Add to that the built-in High Definition Imaging (HDI) waveguide design and the 1" CMMD® Lite high-frequency driver, and you've got a loudspeaker that takes its cues from JBL's own legendary M2 Master Reference Monitor. Add to that the sleek, urbane design of the loudspeaker – both from within and without – and you're dealing with a rare breed of sonic horsepower and brainpower ready to define its era.

Features

- ▶ 4" PolyPlas™ driver delivers unrivaled purity and power
- ▶ 1" CMMD® Lite high-frequency driver and High Definition Imaging (HDI) waveguide bring cinema-grade sound to your listening experience
- ▶ Visually striking design features that can't fail to seduce

Studio 210

2-way 4" Surround Loudspeakers

4" PolyPlas™ driver delivers unrivaled purity and power

We're not afraid in stating that the Studio 210 is one of the finest surround loudspeakers ever built. We have painstaking hours of JBL® acoustic testing to back that up. With its 4" PolyPlas™ driver delivering unrivaled midrange accuracy and power, we'll let a masterpiece speak for itself.

1" CMMD® Lite high-frequency driver and High Definition Imaging (HDI) waveguide bring cinema-grade sound to your listening experience

In addition to being the culmination of 67 years of peerless sound research and development, the Studio 210 carries bold, studio grade technologies like a High Definition Imaging (HDI) waveguide and a CMMD® Lite high-frequency driver that put you on the cutting-edge of home theater soundscaping.

Visually striking design features that can't fail to seduce

The JBL® way is to make it look as good as it sounds. And with the Studio 210, we've made no exception. With Euro-inspired elegance that incorporates soft-rounded edges, black gloss paneling, and soft-touch paint, we've built something that seduces the eye as much as it commands the ear.
