AVAILABLE AT
DIGITAL CINEMA

With the newer generations of flat-panel televisions taking up ever-diminishing space, the design of popular loudspeaker will have to follow suit. The A 101 is shallow enough to match the slimmest new TV's and is only 50 mm / 2" deep, so it can easily be placed in contemporary home decors.

The high-gloss finish of these cute little rectangles offer a welcome visual complement to every flat-panel TV on the market. They only draw attention when it comes to their impressive sound.

With five identical satellite speakers and matching subwoofer the A 101 HCS 5 will offer sound quality that is a vast and impressive improvement over what is offered from modern TV's. Even though the satellites are small, they are able to project a very impressive sound-field with tremendous articulation of even the tiniest details in the most dramatic soundtrack.

With a 76 mm / 3" fullrange driver, the satellites offer a high sensitivity of 85dB/2,8V/1m. They can handle more than 50W power each, which allows for the realistic reproduction that modern action movies demand.

Specifications	A 101 SUB
System	Passive radiator
Woofer Active (mm / in)	203 / 8
Woofer Passive (mm / in)	203 / 8
Impedance (Ohm)	22K
Frequency Range (Hz)	38 - 200
Cut off Frequency (Hz)	40 - 200
Phase (deg.)	0 to -180
Line in	Left / Right
Amplifier Rated output (w)	200
Stand-by power (W)	< 1,0
Weight (kg / Lb)	8,4 / 18.5
Dimensions HxWxD (mm / in)	297 x 571 x 161 / 11.7 x 22.5 x 6.3
Finish	Black

Specifications	A 101
System	Fullrange / Closed
Woofer (mm / in)	76 / 3
Power (W, long / short term)	50 / 70
Sensitivity (dB/2,8V/1m)	85
Frequency Range (Hz)	170 - 20.000
Impedance (Ohm)	6K
Weight (Kg / lb)	0,42 / 0.95
Dimension HxWxD (mm / in)	145 x 91 x 51 / 5.7 x 3.6 x 2
Finishes	Black, White
