**AVAILABLE AT  
DIGITAL CINEMA**

This 3-way wonder can perform as a bipole and a dipole speaker, giving you the perfect surround-sound experience with either DTS or Dolby surround encoding.

The speaker's plastic 'bridge' make installation very easy as you can safely use this as a handle leaving your other hand free for holding a drill, screwdriver etc. The speaker is a one-piece item which means that you only needs to make one visit to the customer to mount it.

The grille covers the whole of the speaker which makes painting the product both simpler and quicker as you don't need to paint the speaker itself.
