

Jamo IW 425 LCR FG delivers high-fidelity sonic thrills

Let us
entertain
you

**AVAILABLE AT
DIGITAL CINEMA**

IW 425 LCR FG is made to play a role in almost any custom surround solution - but it is an equally prudent choice if you're just looking for serious in-wall stereo.

The symmetric construction makes the loudspeaker extremely versatile, allowing it to be installed horizontally or vertically. It can also be used as a front or centre speaker as part of a complete or partially built-in surround sound solution.
