EASY PLUG AND PLAY SET UP

The Jamo STUDIO SB 40 sound bar is designed to quickly connect to your TV. Simply plug in the included HDMI cable to seriously upgrade your TV sound with no hassle.

HDMI 2.0 4K VIDEO PASS THROUGH

Whether or not you already have a 4K TV, the Jamo Studio SB 40 sound bar offers one HDMI 2.0 input with HDCP 2.2 compatibility. This allows for easy connection of your cable box, Blu-Ray player, and gaming system. One HDMI out connects your smart TV with a single wire.

OPTICAL AND ANALOG AUDIO INPUTS

If you haven't made the jump to a TV with HDMI yet, we've included an Optical Digital (TOSLink) and Analog input.

DOLBY AUDIO® DECODING BUILT IN

The built-in Dolby Audio® Decoder formats all your Dolby content to provide a detailed, powerful cinema experience.

TRUE 2-WAY BI-AMPLIFIED SOUND

Dual 3/4" soft dome tweeters deliver crisp highs. Dual 2.5" midrange drivers provide impact and detail to your music and movies. Includes DSP controlled crossover via separate amplifier channels for tweeter and woofer.

WIRELESS SUBWOOFER

Powerful 6.5" wireless subwoofer produces earth-shaking bass in a small cabinet you can place anywhere in the room.

BLUETOOTH® WIRELESS TECHNOLOGY

Works great with all Bluetooth-enabled smartphones, tablets and computers allowing you to play music direct from your device.

VIRTUAL SURROUND MODE

Jamo enhanced virtual surround gives you an engulfing surround sound effect without all the additional speakers and wires.

VOICE ENHANCE MODE

Increases dialogue volume for enhanced vocal clarity without increasing ambient sounds.

NIGHT MODE

Adjusts dynamic range and subwoofer output for quieter listening environments.

REMOTE CONTROL

An easy-to-use wireless remote control included.

RUBBER FEET & KEYHOLE MOUNTS

Allows you to place the sound bar on a tabletop or mount it to the wall.
