CONTROLS

Every space is different. Precise dials for volume and cut-off frequency offer exacting, responsive control that lets you shape your bass to fit the unique character of your room.

STEREO INPUTS

Although designed to be a perfect match with Kanto speakers, sub8 features stereo inputs allowing use with any source. Anything from vintage stereo receivers to high-end amplifiers with stereo sub output can be connected, so you don't have to sacrifice quality for convenience.

FEET

Solid rubber feet keep sub8 firmly planted on any surface. Isolating the housing from the surrounding environment allows for unmatched clarity and separation from lower-mid frequencies, and reduces vibration.

ACOUSTIC MDF

Sub8's acoustic MDF enclosure is engineered to reduce undesired resonance and reverberation inside the box, providing clean, uncolored sound.

DESIGN

Sub8 is available in black, grey and white in your choice of smooth matte or glossy piano finish.

GRILLE

Sub8 features a specially designed grille that protects the driver from impact and dust while allowing sound to travel through with minimal diffraction.
