

# S1 TRUE WIRELESS

# Klipsch®

AVAILABLE AT  
DIGITAL CINEMA

The S1 True Wireless earphones combine comfort, clarity, and freedom from wires.

### LEGENDARY SOUND + GREAT FIT

After 60+ years of making legendary loudspeakers, we built upon our bold audio heritage to revolutionize the headphone industry. Since 2007 we have been creating the most innovative headphones on the market.

### OVAL EAR TIPS

The S1 True Wireless utilize contour ear tips that are designed to accurately sit inside the ear canal. These soft oval silicon tips reduce ear fatigue, provide the ultimate comfort and an excellent seal for noise isolation and superior bass. The S1 includes medium and large ear tips to choose from and fits most listeners.

### FULL BASS, DYNAMIC DRIVER

The S1 True Wireless' dynamic driver combines high output and full bass extension. Ensuring deeper fit and better hold, the small acoustic modules are designed to stay in your ears securely and comfortably.

### BATTERY LIFE + CHARGING CASE

S1 True Wireless provides 5 hours of battery life on a single charge and up to 16 additional hours with the charging case. The plastic battery case not only charges your earphones but protects them when not in use.

### TWO MICROPHONES

The two microphones provide voice clarity and reduces environmental noise.

### BLUETOOTH® 5

With AAC high quality codec, the signal is as good as wired with no delay during video playback.

### SWEAT/WATER RESISTANT

IPX4 rated meaning these earphones will withstand the elements.
