

SB 120

- Single cabinet 2.1 speaker system provides a new aesthetic solution for vastly improved flat-panel television sound
- Rests under most flat-panel TV's with placement flexibility on stands, cabinets, countertops, etc.
- Exclusive Klipsch horn-loaded technology combined with dual, built-in subwoofers for dynamic, room-filling sound
- *Bluetooth*® wireless technology for high-quality music streaming from smartphones, portable music players and computers
- Dolby® Digital decoding for quick, one-connection setup with most TV's
- Remote learning capability controls the system from your existing remote
- Switchable, 3D surround mode simulates a multiple speaker surround system

The Klipsch SB 120 is a more compact alternative to both multiple speaker and conventional soundbar systems, designed as a single cabinet, single connection, sound solution that rests underneath your TV on a stand, shelf, dresser or countertop*. Built to redefine the home theater experience, the SB 120 combines legendary Klipsch horn-loaded technology with separate midrange drivers and dual subwoofers for dynamic, full-range sound. TV shows, movies and gaming all sound much more lifelike with extended dialogue clarity.

The SB 120 includes *Bluetooth* wireless technology, allowing it to double as a premium music playback device with simple wireless streaming of your favorite music from your compatible stored music devices. Dolby® Digital decoding assures for a quick, simple setup to almost any flat-panel TV. Ease-of-use is maintained with an included remote control or uncomplicated programmability to most existing TV remotes.

*designed for flat-panel TV's less than 100 lbs. (45kg) with a base smaller than 31" (78cm) W x 11" (28cm) D
