ROCK SPEAKERS

Built like a tank.  
Plays like mozart.  
Lasts for a Lifetime.

AVAILABLE AT  
DIGITAL CINEMA

## WEATHERPROOF ROCK LOUDSPEAKERS

NOFADE™ PROTECTIVE PAINT

## RS6 PRO 6 1/2" TWO-WAY HIGH PERFORMANCE ROCK LOUDSPEAKER

The **NEW** Professional Installation Weather-proof Rock Loudspeakers are ideal for any application of outdoor sound systems requiring Geo-Realistic™ camouflage. With enhanced features such as covered cross-overs, NoFade™ UV protective paint and exceeding Military standards for corrosion, the Niles Pro series of rocks can last a lifetime, guaranteed!

### FEATURES AND BENEFITS

- **Looks Natural, Sounds Great** Each RS PRO series loudspeaker style has unique textures and colors that are fashioned after natural rocks. Shaped grilles match the features on the front of the rock, making them blend into the cabinet. All of this extra attention to detail leads to a GeoRealistic™ style that enables the these loudspeakers to blend in with other landscaping and disappear.
- **Installation Ease** Pre-attached Burial Rated Connection Cable facilitates quick installation and provides years of trouble-free operation.
- **Weather Proof Construction** The custom cabinet is made from multi-layer fiberglass, it utilizes double seals on the tweeter, woofer and enclosure cover, and is designed so that the woofer drains water away from it. The grilles are painted rust-resistant aluminum and the acoustic drivers are made from weather resistant materials. The RS PRO series loudspeakers have passed some of the most stringent environmental tests devised.
- **Install With Confidence** The best-built loudspeakers deserve the best protection—the Niles Lifetime Limited Warranty.
