VISTA 100

Soundbar System

Today's ultra-thin TVs come with equally thin loudspeakers inside. Hardly, surprising, then that they sound terrible. In fact most buyers need to rush out and buy something - anything that will enhance their TV sound immediately! That 'something' is Wharfedale's new Vista 100. A soundbar that plugs straight into any TV to deliver a warm, rich and highly intelligible sound quality that automatically upgrades the listening experience.

It employs Sonic Emotion Absolute 3D technology to deliver excellent, refined and spatial sound reproduction for a full cinematic performance right at the comfort of your own home. There are slot holes at the back of the speaker cabinet for horizontal wall mounting options. Furthermore, its sensible design allows it to flawlessly complement your flat panel HDTV's as well as accommodate any home cinema system.

Specifications:

General Description	Soundbar
Power Input	DC 15V, 4A
Bluetooth	Supported
Bluetooth Protocol	V2.1 + EDR Class 2
Bluetooth communication range	≤10m (without barrier)
Power Output	60W (RMS)
Inputs	Line in, RCA, Coaxial, Optical
Frequency Response	65 Hz - 18kHz (±3dB)
AC Power Supply Voltage	100V-240V
Standby Power Consumption	<0.5W
Audio Input Jack	3.5mm
Dimensions (WxHxD)	810x110x98 (mm)
Gross Weight	3.36Kg
Safety regulation conformity	CE
